

ZISTOS

TACTICAL SUPPORT VISION

SMART. SECURE. MISSION-READY.

AFFORDABLE HIGH-DEFINITION SURVEILLANCE FOR TACTICAL ENTRIES AND THREAT ASSESSMENTS

**NEW
PRODUCT**

ZISTOS[®] SPRINT

PORTABLE. POWERFUL. PURPOSE-BUILT.

Zistos SPRINT is a compact, high-definition remote visual inspection system designed for tactical teams, SWAT units, special forces, law enforcement, and military operators. It enables safe assessment of threats in buildings, vehicles, collapsed structures, or high-risk zones without direct exposure.

Its lightweight and modular design allows for rapid deployment in seconds, eliminating the need to enter hazardous areas. Equipped with thermal, IR, and wide angle cameras, it delivers professional-grade visibility at a fraction of the cost and complexity of advanced systems.

100% U.S. Engineering & Assembly

Key System Capabilities

High-Definition Imaging
Captures 1080p video with white light and IR illumination.

Thermal Detection
Identifies heat signatures for low-light threat assessments.

Flexible Pole
Telescoping and articulating for access in tight spaces.

Rugged Control
5" touchscreen tablet with recording and instant playback.

Lightweight Design
Compact 3lbs system deploys in seconds without tools.

Wired Connectivity
Reliable plug-and-play setup, no wireless interference risks.

Operational Benefits

- Rapid single-operator deployment.
- Safe standoff surveillance.
- Enhanced low-light visibility.
- Quick threat detection.
- Rugged field durability.
- Cost-effective mobility.

Zistos SPRINT vs Zistos APEX

Feature	Zistos SPRINT	Zistos APEX
System Cost	Affordable, entry-level	Premium, high-end
Portability	Compact, only 3 lbs	Large, heavy system
Battery Life	4-6 hours (built-in)	6-12 hours (interchangeable)
Connectivity	Wired only	Wired and wireless
Display	Single rugged field tablet	Multiple monitors

Applications

- Tactical surveillance
- Hostage rescue
- Event monitoring
- VIP protection
- Threat assessment
- Urban reconnaissance

Why is Zistos SPRINT ideal for tactical teams?

Zistos SPRINT offers rapid deployment, rugged design, and superior imaging for tactical teams. Its lightweight, wired system ensures reliable performance in critical situations, enhancing surveillance and threat detection efficiently.
